Comments & Bibliography

Comments

No	Comment
1	TT96A has not quality of the counting as TT96B. The reason is the bad condition of the Cult Chambers, special in the pillared hall, and a no completed documentation of the TT96A paintings.
2	There is a variation by the sign of the granary (O51)  as (O51b)  granaries.
3	In conformity with Hannig (page 58) there two signs are missing (market red)   <i>jmj-r3 nfrwt</i>
4	Both types are documented, but the exact number of each type is not knowing.
5	A differentiation is not possible.
6	The word <i>smr</i>  friend) are common used in the text of TT96A & B.
7	14.0 - 18.0 notation not assured.
8	19.0 - 22.0 notation not assured. Notation out of Hannig
